

Please do not pre-empt the Indiana Telephone Privacy Law. I very rarely receive phone solicitations any longer or inquiries for surveys. These are very distressing to be receiving while waiting to hear regarding family emergencies, i.e., family members in ill health or undergoing surgeries as well as while waiting to hear from a son who is in the military. I no longer dread answering the phone. The Indiana Telephone Privacy Law isn't broken don't try to fix it. I enjoy having my privacy restored.
